Bottom Lake, Burrswood, Groombridge

Now in our seventh decade since formation in the 1950's, we are a small friendly club offering our members fishing in quiet & beautiful surroundings. Coarse fishing is available on a number of still waters in East Sussex, West Sussex & Kent that include Burrswood, Ticehurst House, Weir Wood Reservoir & Renhurst Farm. There are also stretches of the Upper Medway and its tributary the Eridge Stream available to our Coarse and Trout anglers who want to fish rivers.

The Dorset Arms Angling Club is an affiliated member of the Rother Fisheries Association. Membership allows DAAC members to fish the RFA's waters on the River Rother & Royal Military Canal as part of their Dorset Arms Angling Club membership.

The club runs Sunday matches throughout the year and mid-week evening matches during the summer but also has plenty to offer the pleasure angler.

The club is a member of the Angling Trust and also works closely with the Environment Agency and the South East Rivers Trust in an effort to continually improve its waters.
